

KINESIOLOGY DIPLOMA

Penticton Campus

The Program

Kinesiology program involves the study of physical activity and its impact on health, society, and quality of life. It includes areas of study such as exercise science, athletic training, socio-cultural analyses of sports and society, sport and exercise psychology, fitness leadership, physical education-teacher education, and pre-professional training for physical therapy, occupational therapy, medicine and other health related fields.

Employable Skills

The Kinesiology Diploma program helps students build skills that they can apply to a variety of career options in fitness, recreation, sport, education, and health. Students develop skills for general employability and academic success including information literacy, written and oral communication, numeracy and computer skills, critical and creative thinking, leadership, interpersonal, and professional skills.

Benefits to Employers

- A proven cost-effective method of meeting human resources needs
- Co-op students are available: May - August
- Graduates are available in May
- An opportunity to hire short term employees to help businesses with temporary needs without costly advertising
- Access to a pool of motivated, temporary employees for special projects, peak periods, vacation relief, and coverage
