Telus program to aid Centre of Excellence

PENTICTON — Telus announced Wednesday a program that will support the Okanagan College's Centre for Excellence in Penticton.

Telus pledges \$100 to the college's expansion fund for every new Telus TV customer in Penticton, Summerland, Naramata and Okanagan Falls.

"TELUS believes in the importance of community. Along with all of our team members in the Penticton and South Okanagan area, I am so pleased to support the Okanagan College Foundation with a gift of \$100 in the name of every new Telus TV customer in the area," said Telus general manager Steve Jenkins.

The Okanagan College's new Centre of Excellence, a LEED certified building, will increase the college's capacity and will teach sustainable construction and energy conservation.

This new \$100 gift in the name of every new Telus TV customer will run for one full year.
