

Home inspection program offered

Okanagan College is offering a new certificate program to meet the anticipated upcoming licensing requirements for home inspectors.

The Home Inspection certificate program is a 355-hour part-time program offered evenings and alternating weekends combining classroom instruction with field training. The program aims to enable students to develop the skills and knowledge required to perform comprehensive visual home inspections and prepare professional reports.

After successful completion of the program, students will be prepared to write membership exams for the Canadian Association of Home and Property Inspectors and the National Association of Certified Home Inspectors.

The program will be offered at the Vernon campus beginning in October 2008. For more information contact program administrator Andrea Bradley at 503-2671.
