

Candice Walters
Applied Business Technology
2007

“ Completing my education at the Salmon Arm campus of Okanagan College allowed me to live, work and go to school in my hometown. Making the transition to college was easy because I knew friends at the campus and I developed strong relationships with my instructors almost immediately. The experience gained during the practicum portion of my program led to my current full-time position at the Salmon Arm Golf Club and has given me an edge in my professional development. Okanagan College worked for me because it offered the program I wanted in my community. I’ve been able to get the training I needed to land a job in my field here in Salmon Arm. ”
