

Cannabis Growing, Nutrients and Equipment

CHECKLIST

for

Candidates' Self-Assessment

of

Prior Learning

Candidate Name: _____

Growing, Nutrients and Equipment

LEARNING OUTCOMES	COMPETENCIES
1. Provide 9 common terms used in: 1) growing 2) nutrients and 3) equipment. 3 terms for each category/total of 9 points.	Identify 3 terms used in each category: 1) growing 2) nutrients and 3) equipment. 3 terms for each category for a total of 9 points.
2. Identify 3 parts of the anatomy of the cannabis plant.	List 3 parts of the anatomy of the cannabis plant.
3. Describe the stages of cannabis plant growth.	Identify the stages of cannabis plant growth.
4. Identify 4 factors to consider when purchasing, receiving (inspecting) and storing nutrients and equipment.	List at least 4 things to consider when purchasing, receiving (inspecting) and storing nutrients and equipment.
5. Explain the importance of SOP's, specifically addressing sanitation and personal protective equipment (PPE), when growing cannabis and using nutrients and equipment.	Identify why it is important to follow SOP's, wear PPE and follow sanitation protocols while growing cannabis and using nutrients and equipment.
6. Identify 3 common units of measure used with cannabis growing, nutrients and equipment.	Identify/recognize 3 common units of measure with cannabis growing, nutrients and equipment.
7. Describe in general terms what cannabis nutrients and equipment are designed to do.	Explain what cannabis nutrients and equipment are supposed to do. Why do we use them?
8. What basic things should be documented when growing cannabis and using nutrients and equipment.	List, in general terms, items to record when growing cannabis and using nutrients and equipment.
9. Describe important factors when mixing nutrients and feeding plants.	List, in general terms, 3 important factors when mixing nutrients and feeding plants.
10. Provide 4 examples of equipment used in cannabis growing facilities.	Identify 4 examples of cannabis growing equipment.

Growing, Nutrients and Equipment.

Candidate:

Knowledge Checklist

I can identify 3 terms used in each category: 1) growing 2) nutrients and 3) equipment. 3 terms for each category, total of 9.		I can list 3 parts of the anatomy of the cannabis plant.		I can Identify the stages of cannabis plant growth.	
Yes	No	Yes	No	Yes	No

I can list at least 4 things to consider when purchasing, receiving (inspecting) and storing nutrients and equipment.		I can Identify why it is important to follow SOP's, wear PPE and follow sanitation protocols while growing cannabis and using nutrients and equipment.		I can Identify/recognize 3 common units of measure with cannabis growing, nutrients and equipment.	
Yes	No	Yes	No	Yes	No

I can explain why we use cannabis nutrients and equipment and what they are supposed to do.		I can list, in general terms, important items to record/document when growing cannabis and using nutrients and equipment.		I can list, in general terms, 3 important factors when mixing nutrients and feeding plants.	
Yes	No	Yes	No	Yes	No

I can identify 4 examples of cannabis growing equipment.	
Yes	No
