Learning Outcomes

Upon completion of this course students will be able to

- understand, explain and apply a working knowledge of the principles of risk management and needs analysis.
- identify, discuss and analyze the characteristics associated with an insurance contract.
- explain and apply the concepts and principles associated with government health and private medical insurance, including general features of the plans and taxation.
- demonstrate a working knowledge of needs analysis relative to property and casualty insurance, and a general knowledge of the different types of coverage, including automobile and homeowner insurance.
- understand, explain and apply a working knowledge of the different types of life insurance products and their features, along with the income tax implications of owning and disposing of a life insurance policy.
- demonstrate proficiency in the application of life insurance concepts, including key-person insurance, funding a buy-sell agreement, estate preservation, permanent vs. term insurance, and considerations relative to the replacement of a life insurance policy.
- understand, explain and apply an in-depth working knowledge of the principles involved in completing a needs analysis for life and disability insurance.
- discuss and demonstrate a solid comprehension of the characteristics and concepts associated with different types of disability insurance products, their features and related tax issues.
- explain and demonstrate competence in the application of disability insurance as a source of income replacement and business overhead expenses.
- demonstrate a working knowledge of the elements and features of long-term care and critical illness insurance.
- understand, explain and apply an in-depth working knowledge of the principles of defined benefits pension plans, including topics such as plan design, benefit calculations, contribution rules and formulas, and tax deductibility.
- explain and apply the concepts and principles associated with individual pension plans, including appropriateness, along with the plan's advantages and disadvantages.
- understand, explain and apply an in-depth working knowledge of the principles of defined contribution pension plans, covering such topics as contributions, benefit formulas, projections, applications and tax deductibility.
- identify, discuss and analyze the characteristics and concepts associated with defined benefit and defined contribution pension plans.

Learning Outcomes (con't)

- understand, explain and apply an in-depth working knowledge of the principles of Registered Retirement Savings Plan contribution limits, contribution room, carry-forward calculations and over contributions.
- identify, discuss and analyze the characteristics and concepts associated with a spousal RRSP, retiring allowances, investment considerations, beneficiary designations and self-directed RRSPs.
- understand, explain and demonstrate proficiency in the application of income tax principles associated with RRSPs, including withdrawals from the plan and the death of an RRSP owner.
- explain and apply the concepts and principles associated with pension adjustments and Group RRSPs.
- understand, explain and apply an in-depth working knowledge of the principles of Locked-In RRSPs and Locked-In Retirement Accounts (LIRAs).
- understand and explain Deferred Profit Sharing Plans (DPSPs), including appropriateness of the plan, along with the plans advantages and disadvantages.
- understand, explain and apply an in-depth working knowledge of the principles and features of a Registered Retirement Income Fund (RRIF), including topic such as minimum withdrawal calculations, a spousal RRIF, attribution, asset transfers and income tax implications.
- identify, discuss and analyze the characteristics, concepts and applications associated with annuities.
- understand, explain and apply an in-depth working knowledge of the principles of a Life Income Fund (LIF) and a Locked-in-Retirement Income Fund (LRIF).
- explain and apply the concepts and principles associated with reverse mortgages and retirement compensation arrangements.
- understand, explain and apply the principles of retirement needs analysis.
- demonstrate a comprehensive understanding of the process and issues related to establishing retirement goals and objectives.
- demonstrate a solid comprehension of the characteristics and concepts associated with the enhancement of personal assets through the wealth accumulation phase and subsequent retirement income strategies.

Course Objectives

This course will cover the following content:

- A comprehensive understanding of the principles and applications related to concepts of managing risk and retirement planning
- Practices, issues and products of insurance and retirement planning
- Risk management and retirement planning processes progressing from the wealth accumulation phase into the retirement phase

Evaluation Procedure

Term Work	20%
Mid-term Exam	30%
Final Exam	50%
Total	100%

Notes

Certified Financial Planner License:

The Financial Planning Standards Council oversees the granting of the Certified Financial Planner license. This course qualifies for educational credit with Advocis. Students who wish to write the exams for the CFP license must complete a qualifying educational program. Your professor will provide you with more information on appropriate course selection at Okanagan College to meet the requirements for educational credits with Advocis.

Required Texts/Resources

CCH Canada – Comprehensive Practices in Risk and Retirement Planning, 5th ed. 2013, (CFP Education Program – Course 3)

**** TEXT IS ORDERED THROUGH ADVOCIS – PLEASE SEE COURSE MOODLE SHELL FOR INSTRUCTIONS ****

Courses in the financial services area frequently require the use of a financial calculator and you are expected to be proficient in the use of such a calculator. The Texas Instruments BAII+ is the most commonly used in OC business courses and is well suited to the requirements of this course.

Apr	7	Reverse Mortgages, RCAs and Retirement Planning Retirement Planning	Module 13, Units 4 & 5 Module 14
Apr	12 - 26	Final Exam Period	

SKILLS ACROSS THE BUSINESS CURRICULUM

The Okanagan School of Business promotes core skills across the curriculum. These skills include reading, written and oral communications, computers, small business, and academic standards of ethics, honesty and integrity.

STUDENT CONDUCT AND ACADEMIC HONESTY

What is the Disruption of Instructional Activities?

At Okanagan College (OC), disruption of instructional activities includes student “conduct which interferes with examinations, lectures, seminars, tutorials, group meetings, other related activities, and with students using the study facilities of OC”, as well as conduct that leads to property damage, assault, discrimination, harassment and fraud. Penalties for disruption of instructional activities include a range of sanctions from a warning and/or a failing grade on an assignment, examination or course to suspension from OC.

What is Cheating?

“Cheating includes but is not limited to dishonest or attempted dishonest conduct during tests or examinations in which the use is made of books, notes, diagrams or other aids excluding those authorized by the examiner. It includes communicating with others for the purpose of obtaining information, copying from the work of others and purposely exposing or conveying information to other students who are taking the test or examination.”

Students must submit independently written work. Students may not write joint or collaborative assignments with other students unless the instructor approves it in advance as a group/team project. Students who share their work with other students are equally involved in cheating.

What is Plagiarism?

Plagiarism is defined as “the presentation of another person’s work or ideas without proper or complete acknowledgement.” It is the serious academic offence of reproducing someone else’s work, including words, ideas and media, without permission for course credit towards a certificate, diploma, degree and/or professional designation. The defining characteristic is that the work is not yours.

“Intentional plagiarism is the deliberate presentation of another’s work or ideas as one’s own.” Intentional plagiarism can be a copy of material from a journal article, a book chapter, data from the Internet, another student, work submitted for credit in another course or from other sources.

“Unintentional plagiarism is the inadvertent presentation of another’s work or ideas without proper acknowledgement because of poor or inadequate practices. Unintentional plagiarism is a failure of scholarship; intentional plagiarism is an act of deceit.”

What are the Students’ Responsibilities to Avoid Plagiarism?

Students have a responsibility to read the OC Plagiarism Policy and Procedures outlined in the OC calendar, which is available in online format www.okanagan.bc.ca. Students must acknowledge the sources of information used on all their assignments. This usually involves putting the authors’ name and the year of publication in parentheses after the sentence in which you used the material, then at the end of your paper, writing out the complete references in a Reference section.

“Students are responsible for learning and applying the proper scholarly practices for acknowledging the work and ideas of others. Students who are unsure of what constitutes plagiarism should refer to the UBC publication “*Plagiarism Avoided; Taking Responsibility for your Work*”. This guide is available in OC bookstores and libraries.

Students are expected to understand research and writing techniques and documentation styles. The Okanagan School of Business requires the use of the APA or MLA style, but suggests that students cite references using the APA guidelines (see Publication Manual of the American Psychological Association, 6th edition (2009)). A copy of the APA manual is available in the reference section and also available for circulation from OC libraries. The library website has access to these two major citing styles.

What are the Penalties for Plagiarism and Cheating?

The Okanagan School of Business does not tolerate plagiarism or cheating. All professors actively check for plagiarism and cheating and the Okanagan School of Business subscribes to an electronic plagiarism detection service. All incidents of plagiarism or cheating are reported and result in a formal letter of reprimand outlining the nature of the infraction, the evidence and the penalty. The Dean of the Okanagan School of Business and the Registrar record and monitor all instances of plagiarism and cheating. Penalties for plagiarism and cheating reflect the seriousness and circumstances of the offence and the range of penalties includes suspension from OC.
