

Learning Framework

At Okanagan College, learning is a continuous process between learners and educators, guiding transformative teaching and learning.

Empowering Learners and Educators

We will create transformational educational experiences, broadening learners' sense of curiosity and personalizing experiences by creating a supportive and inclusive setting focused on students' learning goals.

Community Matters

Connections amongst learners, educators and community contribute to developing learning partnerships that empower individuals and communities to flourish.

Learning Informed by Place

The culture, traditions, and history of our location inform curriculum, individual learning options, and ways of knowing. We are committed to creating relational learning environments that value and reflect local and global communities.

Curriculum for Tomorrow

Purposefully designed, outcome-based curriculum and learning experiences will be engaging, socially integrated, and socially responsible while having clearly defined learning outcomes.
